What is Slow Food?

The **Slow** Food **Network**:

it tastes
good

and gives us
pleasure
to eat it

clean

the way it's produced respects
the environment, animal welfare
and our health

accessible prices for consumers
and
fair

conditions and pay for
small-scale producers

What does
Slow Food do?

The Slow Food Youth Network

Education the Slow Way

... an approach that allows children and adults to **understand food**, how it's made, by who and where it comes from

TRUE-Foodprint: legume recipes to encourage sustainable food systems

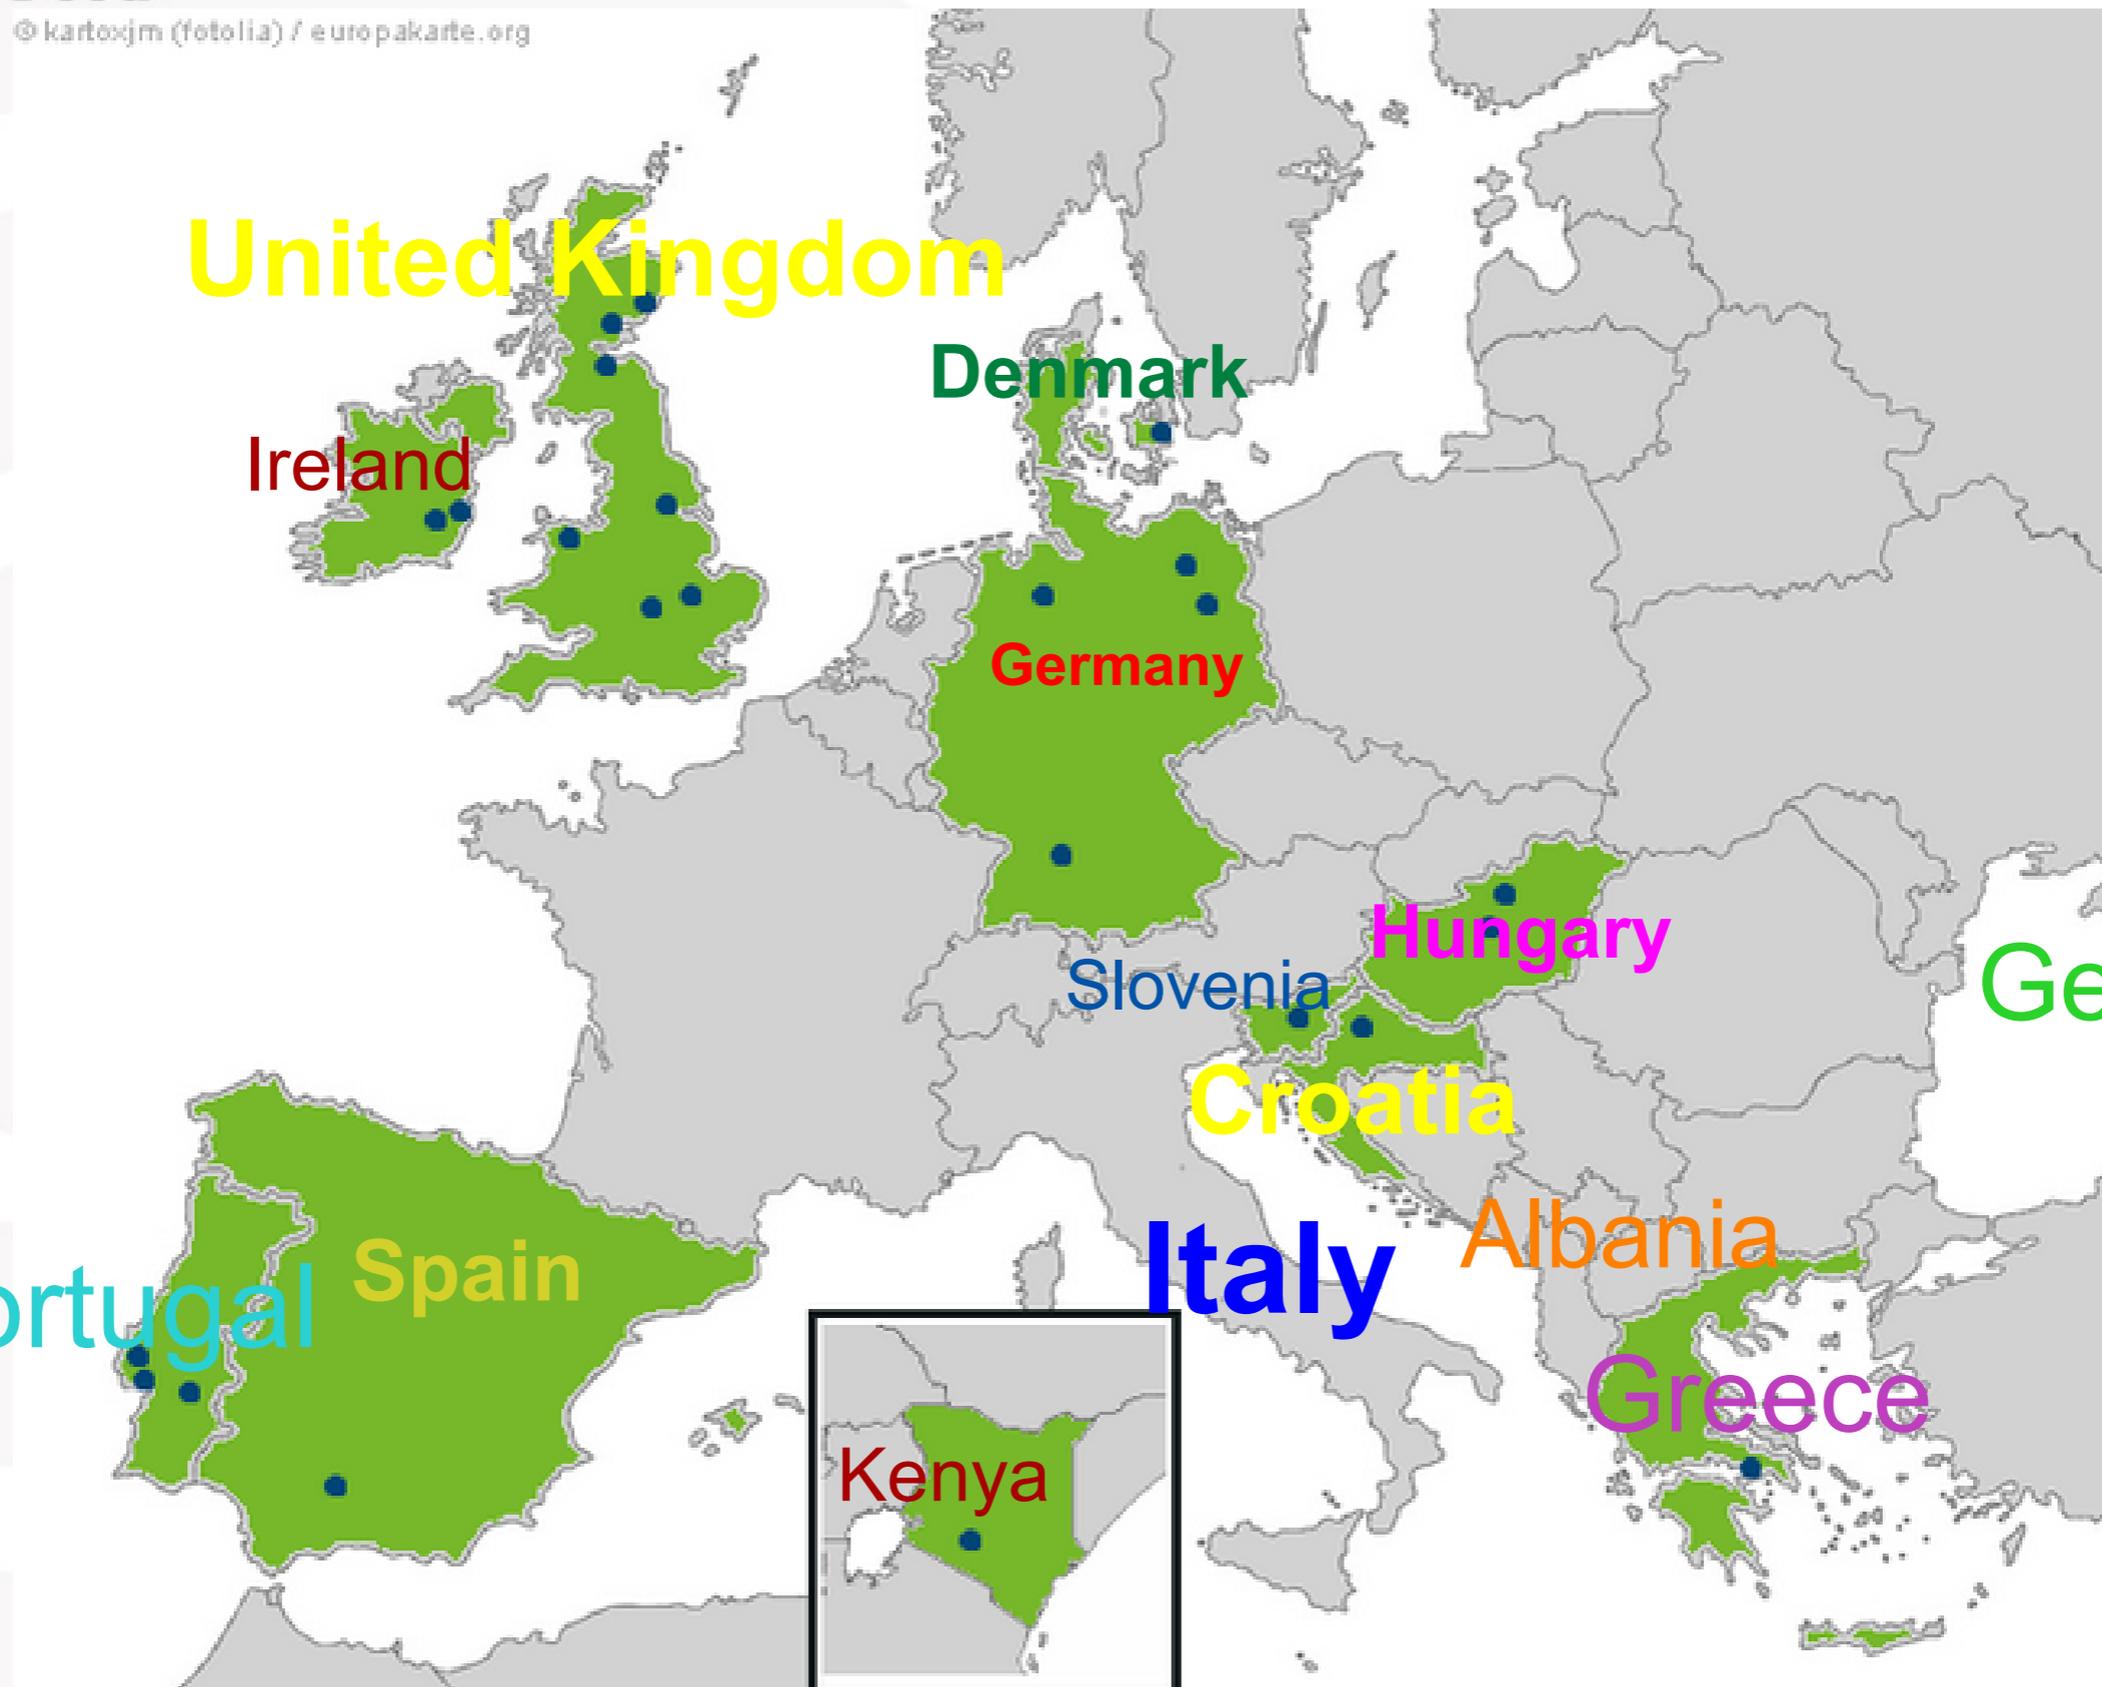

- Which legumes are used in your recipe?
- How and where is this legume grown? Which climate is needed for it to grow well?
- What is the significance of the legume in your region, culturally and otherwise?
- What are typical and suitable side dishes for these legumes? Are there other typical side dishes for these legumes that are not part of your recipe?
- Does this legume have a history? What is the story behind your recipe – personally or culturally: What can you tell us about it?

Make legumes great again - reviving a traditional food culture:

Help us to create a cookbook based on European legumes`

**Slow Food
Chef Alliance**

Slow Beans comunità leguminosa

**Arche des
Geschmacks®**

Share your **favorite legume recipe** with us!

For centuries, legumes have played a central role in our **food culture** as the basis for many traditional dishes that are now almost forgotten. This is why we want to highlight the diversity and nutritional **value of legumes**, and the beneficial effects they have on the **climate** and the **environment**.

Help us make **legumes** better known again by sending us **your recipe** with a traditional legume that deserves more recognition. Let us demonstrate how **tasty, colorful** and **versatile** legumes are.

For a recipe template and more information please write to *Slow Food Germany e. V.* :
